UNITED WAYS OF NEW JERSEY FOCUS ON THE BUILDING BLOCKS FOR A BETTER LIFE

UNITED WAYS OF NEW JERSEY WORKING TOGETHER

EDUCATION

Helping children and youth achieve their potential through education

- Improving access to quality, affordable child care and early learning opportunities
- Partnering with schools and parents to improve graduation rates
- Providing after-school and mentoring programs for at-risk youth

United Ways across New Jersey are working on programs that help non-profit, center-based child care programs receive accreditation from the National Association on the Education of Young Children through enhanced training and technical assistance.

Improving high school graduation rates is a major priority for United Ways throughout New Jersey. We've developed a school-based, community-wide leadership system and a supportive mentoring network of peers and adults to assist student transition into high school.

INCOME

Helping families become financially stable and independent

- Supporting basic needs while increasing financial education
- Helping hardworking people obtain job training and family-sustaining wages
- Increasing affordable housing for individuals and families

Statewide, through 2-1-1, United Ways have been able to assist low-income families reclaim over \$16M by helping them file for the Earned Income Tax Credit. United Way's aim is to help families increase income, build savings, grow assets, and reduce debt. Our goal is to help families achieve financial stability by helping them advance toward a goal that leads to stable housing, meaningful employment or post-secondary education.

Annually, tens of thousands of lower income individuals and families receive support, education, counseling, resources and/or case management in order to increase their capacity to move towards financial independence.

HEALTH

Improving people's health

- Increasing access to critical healthcare services
- Reducing substance abuse, child abuse and domestic violence
- Increasing health education and preventative care

Research has shown that good health leads to increased education outcomes, such as success in school. United Ways of New Jersey are working to increase access to quality healthcare and preventative services.

United Way is an important partner in creating strong local relationships to address the prevention of risky behaviors and the root causes of poor health outcomes and disparities among groups. Statewide, United Ways have provided thousands of dollars in funding innovative access to care/ease management services.

United Ways of New Jersey Women's Leadership Council recognizes that women are change agents and their participation in addressing key social issues is critical, to improve lives and enhance philanthropy around issues that impact our communities. Our mission is to improve lives by mobilizing the caring power of women in our communities by collaborating, combining resources, and building statewide leadership.

Initiative to End Homelessness

The initiative brings together government agencies, non-profit organizations, elected officials, corporations, faith based institutions, community groups and individuals who, in partnership, are employing innovative new strategies to end homelessness in our state within ten years.
